The GDIB—Global Diversity and Inclusion Benchmarks: Standards for Organizations Around the World—helps organizations of all sizes around the world, in a variety of sectors, using a variety of approaches to D&I work, achieve high-quality D&I outcomes. First published in 2006, the 2014 edition is authored by Julie O’Mara and Alan Richter, Ph.D., and 80 Expert Panelists. It is sponsored by The Diversity Collegium, a nonprofit organization dedicated to advancing the field of diversity and inclusion through think tank dialogues, symposia, research, and publications. The GDIB is free of charge and may be downloaded at www.diversitycollegium.org. Check regularly for more User Tools.

Please pass this newsletter along to others. We have a goal to increase the visibility of the GDIB. Send us potential reader contact information and we will add them. Thank you.

TIPS ON HOW TO ACHIEVE SPECIFIC BENCHMARKS
This is a new newsletter feature. Please offer examples of strategies and activities you are using to achieve specific benchmarks. We will also provide some from the D&I literature. You don’t have to be “using” the GDIB to provide an example.

AN ACTION TO HELP ACHIEVE THIS BENCHMARK: "Communications professionals and speechwriters are educated about D&I and include those messages into general organizational communications." This benchmark is at the 75 percent level, Category 9: D&I Communications.

The executive team of one organization, Royal Bank Financial Group, Canada, on the advice of EP Lynda White, then head of Employment Equity & Diversity, along with the RBC Diversity Business Council, agreed that all executives and top-level managers would incorporate the organization's diversity messages in 33 percent of all their speeches and meetings both internally and externally. In order to accomplish this, the Employment Equity & Diversity staff provided talking points and other materials and helped educate the organization's speechwriters so they could knowledgeably incorporate diversity messages into the speeches. The other part of the story that's especially interesting is that the Diversity Business Council suggested that the executives incorporate diversity messages into 25 percent of their speeches, but at a meeting with the executive team and the entire Council, the president and chair of the company, not only agreed that it was a good idea, but increased it to 33 percent. And this happened in the 1990's!!!!! This is an idea that can easily apply to all sectors and approaches. It is timeless and easy to measure success.

NEWS AND IDEAS ABOUT & FROM USERS AND EXPERT PANELISTS
Do you have news and/or best practices to announce/share? Information you need? Send and we’ll share it.

LOCAL APPLICABILITY OF GDIB IMPORTANT
In Mid-May, EP Jeremy Solomons presented the GDIB to about 20 board members and D&I advocates for one of the leading non-profit community agencies in Greater Austin, Texas. They were very interested in both the comprehensiveness of the global benchmarks and their applicability in a very local context. And the price was just right!!!!

NEW BOOK: EVERYDAY WHITE PEOPLE CONFRONT RACIAL AND SOCIAL INJUSTICE: 15 STORIES
EP Eddie Moore, Marguerite W. Penick-Parks, and Ali Michael edited the 15 stories that make up this book. It's published by Stylus Publishing, LLC, one of the major publishers in higher education and is recommended for multicultural education, training, diversity, and leadership. www.styluspub.com. Here’s what is on the back cover: “This book vividly presents the personal stories, experience, and reflections of 15 prominent White activists. The contributors recount the circumstances that led them to undertake this work, describe key moments and insights in their journeys, and frankly admit to their continuing lapses and mistakes. This is an eye-opening book for anyone who wants to understand what it means to be White together with the reality of what is involved in becoming a White antiracist and social justice advocate; is interested in the paths taken by those who have gone before; and wants to engage reflectively and critically in this difficult and important work.” GDIB co-author Julie O’Mara provides one of the 15 stories: Working Within the System to Change the System. The book is readily available. Just search the Internet.

WEPEAN – Women in Engineering ProActive Network
GDIB users Joan Buccigrossi, Ph.D., and Tchernavia Rocker will conduct a plenary session at this conference “Measuring Culture Change Using the Global Diversity and Inclusion Benchmarks Tool.” From the conference program description: Joan Buccigrossi, formerly the Director of Global Diversity and Inclusion at Rockwell Automation, and Tchernavia Rocker, General Manager, Employee Relations & Workplace Environment at Harley-Davidson Motor Company, will tell you how they adapted the Global Diversity and Inclusion Benchmarks tool (GDIB) to guide diversity and inclusion efforts of leaders and employees in their respective companies. Certain aspects of D&I can be measured with traditional demographic metrics. For example, how many women are in leadership roles, or what percentage of women and people of color were recruited into the organization in a give time period. While these metrics are important, they only tell part of the story. Learn how Rockwell Automation and Harley-Davidson used the GDIB to drive and measure culture change toward building a more inclusive workplace for all employees! WEPEAN is a non-profit educational organization founded in 1990 to be a catalyst for change to enhance the success of women in the engineering professions. It has both individual and institutional memberships. Go to:  www.wepan.org  To register for the conference, go to:  http://www.wepan.org/?page=A7
