The GDIB—Global Diversity and Inclusion Benchmarks: Standards for Organizations Around the World—helps organizations of all sizes, in a variety of sectors and industries, using a variety of approaches to D&I work, achieve high-quality D&I outcomes. First published in 2006, the 2014 edition is authored by Julie O’Mara and Alan Richter, Ph.D., and 80 Expert Panelists. It is sponsored by The Diversity Collegium, a nonprofit organization dedicated to advancing the field of diversity and inclusion through think tank dialogues, symposia, research, and publications. The GDIB is free of charge and may be downloaded at www.diversitycollegium.org. Check regularly for more User Tools. Research for a 2016 edition with 98 Expert Panelists (see Diversity Collegium website for bios on the EP) is in process.

Please pass this newsletter along to others. We have a goal to increase the visibility of the GDIB. Send us potential reader contact information and we will add them. Thank you.

TIPS ON HOW TO ACHIEVE SPECIFIC BENCHMARKS

Please offer examples of strategies and activities you are using to achieve specific benchmarks. We will also provide some from the D&I literature. You don’t have to be “using” the GDIB to provide an example.

IBM’S CORPORATE SERVICE CORPS SUPPORTS ACCESSIBILITY AND INCLUSION THROUGH COMMUNITY-DRIVEN ECONOMIC DEVELOPMENT PROJECTS

EP Yves Veulliet, Global Disability & Inclusion Manger, HR, at IBM in Brussels, Belgium, reports that including people with all abilities in IBM’s workforce is part of IBM’s DNA. One way is through its Corporate Service Corps. The IBM’s Corporate Service Corps (CSC) was launched in 2008 to provide IBMers with high-quality leadership development while delivering high-quality problem solving for communities and organizations in emerging markets. During the assignment, participants perform community-driven economic development projects, working at the intersection of business, technology, and society. A number of Corporate Service Corps projects with a special focus on disability and accessibility took place recently: one of them was in China where a team of IBMers went to Nanning to work with the Angel House Rehabilitation Centre, the first non-government and non-profit organisation (NPO) in Guangxi that provides services in rehabilitation, early intervention, education and independent living skills for young people with mild to moderate cerebral palsy. The IBMer’s mission included:

• Setting up a road map for realizing the organization’s next 3-year development strategy and provided recommendations for the effective organizational management and service delivery.
• Developing strategic recommendations to enable Angel House to become a model non-profit Center of Excellence that can be applied to other Cerebral Palsy organization’s in China’s Cerebral Palsy Rehabilitation Network,
• Providing recommendations on the future targeted branding and marketing strategy and enhanced brand perception of Angel House with a focus on social media techniques and innovative fund raising models to attract wider attention from public and private sector donors.

• Conducting research and collection of the global best practice of rehabilitation organizations for the disabled and effective organizational management of NPOs through the use of case studies, reports and white papers to be shared with the Angel House team.

NEWS, REQUESTS, AND IDEAS FROM JULIE, ALAN, AND THE DIVERSITY COLLEGIUM

CONNECTING D&I AND SUSTAINABILITY – POSSIBLE NEW CATEGORY FOR 2016 EDITION OF THE GDIB – YOUR THOUGHTS?

The GDIB Expert Panelists have been considering adding a new category to the 2016 edition, which is due to be released in March 2016. A committee of EP is working on incorporating EP Round Two feedback now. If any of you reading this newsletter have experience connecting D&I and Sustainability please let us know. We are using a draft of the United Nations 2030 Agenda for Sustainable Development to guide our thinking. EP Ursula Wynhoven is the General Counsel as well as the Chief, Governance and Social Sustainability for the United Nations Global Compact, and also on the GDIB sustainability committee (along with EPs Toni Wilson, Lynda White, Cris Carvalho, and JuanCarlos Aruaz). The UN guidelines will be announced at the end of this month. Below is the draft announced several months ago.

Preamble

This Agenda is a plan of action for people, planet and prosperity. It also seeks to strengthen universal peace in larger freedom. We recognise that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development. All countries and all stakeholders, acting in collaborative partnership, will implement this plan. We are resolved to free the human race from the tyranny of poverty and want and to heal and secure our planet. We are determined to take the bold and transformative steps, which are urgently needed to shift the world onto a sustainable and resilient path. As we embark on this collective journey, we pledge that no one will be left behind. The 17 Sustainable Development Goals and 169 targets, which we are announcing today, demonstrate the scale and ambition of this new universal Agenda. They seek to build on the Millennium Development Goals and complete what these did not achieve. They seek to realize the human rights of all
and to achieve gender equality and the empowerment of all women and girls. They are integrated and indivisible and balance the three dimensions of sustainable development: the economic, social and environmental. The Goals and targets will stimulate action over the next fifteen years in areas of critical importance for humanity and the planet:

People
We are determined to end poverty and hunger, in all their forms and dimensions, and to ensure that all human beings can fulfill their potential in dignity and equality and in a healthy environment.

Planet
We are determined to protect the planet from degradation, including through sustainable consumption and production, sustainably managing its natural resources and taking urgent action on climate change, so that it can support the needs of the present and future generations.

Prosperity
We are determined to ensure that all human beings can enjoy prosperous and fulfilling lives and that economic, social and technological progress occurs in harmony with nature.

Peace
We are determined to foster peaceful, just and inclusive societies, which are free from fear and violence. There can be no sustainable development without peace and no peace without sustainable development.

Partnership
We are determined to mobilize the means required to implement this Agenda through a revitalised Global Partnership for Sustainable Development, based on a spirit of strengthened global solidarity, focused in particular on the needs of the poorest and most vulnerable and with the participation of all countries, all stakeholders and all people.

The inter-linkages and integrated nature of the Sustainable Development Goals are of crucial importance in ensuring that the purpose of the new Agenda is realised. If we realize our ambitions across the full extent of the Agenda, the lives of all will be profoundly improved and our world will be transformed for the better.
